## **NAVIGATION WARNING (Extension)**

**NOTICE NO 002/017**

**DATE OF ISSUE 13/02/2017**

**WATERWAY**

**AVON NAVIGATION**

**LOCATION**

**TEWKESBURY REACH**

**DESCRIPTION & TYPE OF WARNING**

Reduced & Varying Water Levels  
Risk to Moored & Moving Boats

**DURATION**

**13/02/2017 until Further Notice**

### **NAVIGATION & SPECIAL NOTES**

The Environment Agency (EA) is continuing major works on Abbey Mill Sluice. To achieve this they are to vary water levels with a reduction of the water level on the Tewkesbury Reach to 9.5m AOD. This is a reduction of 0.13m (5.2 inches) below the minimum level (Summer Level) of 9.63m AOD.

Moored Boats should ensure their lines are slack enough to accommodate this reduction and are moored in deep water.

Boats on the move should take care, especially exiting Stensham Lock, when navigating in shallow areas and when near Stanchard Pit due to high water flow through the sluice.

The EA regret any inconvenience caused. For further information and an update of this notice contact the EA on 0800 807060

Up to date information regarding this notice may be obtained from the EA:
